Explanation to the Application Form - Page 1

(If you have any questions, please e-mail us: semtix@refrat.hu-berlin.de)

Any student who is enrolled at HU Berlin may apply for a financial aid subsidy for the semester ticket. All students whose monthly income does not exceed the financial need calculated according to the statute of the social fund are eligible for this subsidy. The amount of subsidy is determined not only by the relation of each individual applicant's income and expenses as well as incited hardships. It is also limited by the total sum of all approved applications and the available funds in each semester. The greater the number of students who are granted financial aid, the smaller the amount of subsidy available for each individual may be.

The application for this subsidy must be sent to the semester ticket office within the **application period** (in the summer semester: January 1st to February 28th, **in the winter semester: June 1st to July 31st**, for newly enrolled students: within 6 weeks after enrolment). Here you can find further information: www.refrat.de/semtix/wordpress/en/

Supporting documents: Please send us **copies of your documents** and do not send us your original documents. If possible, the supporting documents should contain only information necessary for the application. We have no need and no desire to receive the data of uninvolved third persons and non-relevant bank account transactions. In general, we can accept supporting documents from previous applications, as long as the numbers for the calculations or the details of the situation have not changed (if sums are unchanged over two months or more, one document (e.g. bank statement) from one month of that period will be sufficient). Copies of bank statements are sufficient to prove all kinds of income and expenses (including bank overdraft). Except for the relevant transactions, all entries on bank statements may be blacked out. **Sensitive documents such as passports or doctor's written statements may simply be presented in person in the semesterticket office.**

- 1** Please check this box, if you were newly enrolled at the HU Berlin in the application semester (this also applies to Master's students). It makes no difference whether you already studied somewhere else or whether you are actually in your first semester of studies in general (Hochschulsemester). We need this information to determine if an application can be accepted after the regular deadline. In that case, a different calculation period can be applied: All your statements and supporting documents have to refer to the last six months before application (e.g. application in September -> calculation period is March to August). Please adapt this in the application form by hand, if applicable.
- 2 Personal Information.** In the field "c/o" you can write the name of your main tenant, if you live in someone else's household or if your own name is not listed on your home letterbox. In the field "Apartment number" you can state e.g. a W.E.N. if you live in a student residential housing, or you may indicate other details that should appear on your postal address in order for letters to be delivered to you (e.g. Hinterhaus).
Important note: If your address changes, please inform us (changes of address communicated to the enrolment office (Immatrikulationbüro) or stated in AGNES do not reach us!).
- 3 Contact information.** Providing your e-mail address and phone number is voluntary and not required, but it makes our work much easier, especially in case we need to contact you regarding further details about your application.
- 4 Bank account information.** As a general rule, we pay the subsidy by bank transfer to a bank account. For that purpose, we require your account information. The subsidy is not subtracted from your student fees for the next semester - therefore, in order to re-register, you must pay the full amount of your student fees to the university by bank transfer.
If you need the payment in cash, please message us via e-mail. If you are granted a subsidy, we will contact you and you can pick up a payment form at the semesterticket office. With this form and an official photo ID, you will receive a direct payment in cash at the cashier's office (Kasse der HU, UL6).
- 5 Different bank account holder.** In case the bank account to which we would transfer your potential subsidy is not your own, we need to know the first and last name as well as the full address of the bank account holder.
- 6 Calculation period.** The calculation period consists of the months that your claims and supporting documents must refer to. For the application for the **winter semester, this refers to the months of January to June**, for the summer semester to the months of July to December. Please note: For newly enrolled students who are applying for a subsidy outside of the regular application period, there a different calculation period may be applied (see
- 7 Rent.** Enter your monthly rent, including utilities; or, if relevant, the part of the rent that you paid in the calculation period (basic rent + utility costs + advance payments for heating costs, if applicable). Additional expenses such as electricity, telephone, internet access, or newspaper subscriptions can not be considered as rental costs. If you had extra expenses for heating and/or hot water, these may be added in at a fixed rate (see below). If your rent changed within the calculation period, please write out the amount of rent for each month on a separate page. **Supporting documents:** A copy of your housing contract/rental agreement, or a bank statement showing the payment of your rent, or a letter of confirmation from the person to whom you pay rent.
- 8 Additional heating and hot water expenses.** Additional monthly expenses for heating and hot water are costs for single-storey gas heating, continuous-flow water heaters, electric hot water heaters, night storage heaters, stove heaters (e.g. coal stoves), electric radiators, or similar. If this applies to you, please check this box, and in the field for "Rent", please enter the amount of your rent minus these costs. Since we factor in these heating costs as a fixed sum, we require no supporting documents. Please note: All other expenses for electricity and gas (e.g. electric or gas kitchen stoves, electric lights, power appliances) are not additional heating and water costs, since they are considered as basic needs at a fixed sum.
- 9 Higher rent due to a limited choice of apartments.** Persons who claim consideration for the hardship `disability`/`chronic illness` may factor in higher costs of housing and heating. **Supporting documents:** A copy of a disability certificate or a doctor's written statement about the disability/chronic illness.

If you paid the student standard rate (currently approx. 115 €), a copy of your insurance card is sufficient. **Please note: If you paid no fees or other parties (e.g. employer, family, JobCenter) covered the fees of your health care insurance, please check the second box.** In this case, we need no supporting documents.
- 11 Financial support for dependent persons living in your household.** Please list all persons in your household whom you financially support. They will be considered in the calculation as an additional financial necessity per person and month. If you do not have enough space on the form, please list additional persons on an extra page. If you were eligible to child benefits (Kindergeld), please inform us of this. If you list persons of full legal age, then you must state their income and provide supporting documents for them as well, which will be considered in the overall calculation.
- 12 For additional costs due to chronic illness/disability of a household member,** a fixed sum may be allowed. **Supporting documents:** A copy of the disability certificate, or a doctor's written statement about the disability/chronic illness of that person.
- 13 I come from another country.** These expenses require no supporting documents; they will be calculated as a fixed sum. This sum covers the costs of visas, translations or similar expenses.
- 14 Costs of living for other persons,** who do not live in your household. The information you enter should refer to the calculation period. **Supporting documents:** Copy of agreement for financial support, a corresponding bank statement, or a letter of explanation from the person whom you pay support.
- 15 Special dietary needs.** Please enter your average monthly costs within the calculation period. **Supporting documents:** Copy of a doctor's written statement attesting to the necessity of a special diet. If these costs exceed 61 € per month, please provide bills documenting the costs for one exemplary month within the calculation period.

Expenses can not be considered here and should be listed in boxes 15 to 17, if applicable.
- 32 Protection of personal data.** In order to determine whether you have paid the fee for the semester ticket, we will compare your personal data with the enrolment office. Your name, your student ID (Matrikelnummer), and your birth date will be compared with the data files at the enrolment office. The information we receive in exchange tells us, if you are/were enrolled or on leave from your studies, or whether you are/were (partly) exempted from paying ticket fees. Further, the semesterticket office is inspected at irregular intervals by the state audit department. An auditing accountant then has access to our files, but the documents remain in our offices (and may not be copied or transcribed). This audit investigation serves solely the purpose to monitor our accounting methods and the integrity of our allocation of resources from the social fund.

Please note the following when you compile your supporting documents:

- ⇒ **Please do not send us original documents - copies are sufficient.** We take no responsibility for your original documents. If needed, you can make copies at the semesterticket office (please contact us via e-mail for this).
